

Infant Heel Warmer

McKesson Infant Heel Warmers are designed to help minimize discomfort and increase blood flow prior to taking a blood sample. Easy to activate, they provide a one-step, convenient alternative to the use of hot towels, quickly heating up to 105 degrees Fahrenheit and producing uniform heat consistently. Product requires no additional preparation. Designed for single use. Can be stored at room temperature.

Features and Benefits

- Evenly distributed heat warms up the heel area prior to drawing blood sample
- Helps improve blood draw from infants
- Less squeezing reduces possibility of bruising and promotes faster healing
- Medical grade adhesive helps holds the heel warmer in place
- Not made with natural rubber latex
