

2-Layer Compression Bandage

The McKesson 2-Layer Compression Bandage system absorbs, protects, and provides sustained therapeutic compression for up to seven days when applied as directed. Both bandages are designed to be used together and offer a secure, thin, non-slip compression dressing.

Indications: Manages venous leg ulcers and related conditions. This system consists of two bandages that, when applied correctly, provide compression for up to seven days. Multi-layered system simultaneously absorbs, protects, and provides graduated sustained compression. Not made with natural rubber latex.

Features and Benefits

- Each kit contains two bandages:

Layer No. 1: Comfort Padding Bandage, is a white, padded compressive bandage, which is pleasantly soft and absorbent and used to provide even, inner padding. It absorbs exudate and redistributes pressure to aid in the management of venous insufficiencies. Dimensions: 4" x 6.8 yards, stretched

Layer No. 2: Cohesive Compression Bandage is a flesh-colored bandage of a cohesive elastic type and has been designed to provide the necessary residual pressure. It provides compression and helps keep the bandage in place. Dimensions: 4" x 6.9 yards, stretched

- Developed for the therapeutic treatment of venous leg ulcers and associated symptoms
- Easy and fast to apply
- Non-sterile
- Not made with natural rubber latex

ORDERING INFORMATION

DESCRIPTION	MFR #	QTY	EXUDATE LEVEL*
Compression Bandage System, 2-Layer, Non-Sterile	1006	1/pk, 8pk/cs	N/A

EXUDATE LEVEL KEY: ◊◊◊ = Light ◊◊◊ = Moderate ◊◊◊ = Heavy

*Exudate level indicates highest level of exudate that the dressing can accommodate

Satisfaction Guaranteed
