

SAFETY DATA SHEET

SECTION 1: PRODUCT AND COMPANY INFORMATION

PRODUCT NAME: Adhesive Remover Wipe

MFR #: 176-5729

RECOMMENDED USE: Remove oil, dirt, and adhesive residue from skin

DISTRIBUTED BY: McKesson Medical-Surgical Inc.
9954 Mayland Drive, Suite 4000
Richmond, VA 23233

INFORMATION LINE: 1-800-777-4908 Monday – Friday 8:00 a.m. – 6:00 p.m. EST

EMERGENCY PHONE: 1-800-451-8346 (3E Company) Day or Night

SECTION 2: HAZARDOUS IDENTIFICATION

EMERGENCY OVERVIEW

May cause eye irritation. May be harmful if inhaled or swallowed. Do not swallow.

POTENTIAL HEALTH EFFECTS

Eye Contact: May cause irritation

Skin Contact: Repeated or prolonged contact may cause skin dryness or cracking

Inhalation: High vapor concentration may cause headaches, dizziness, anesthesia, drowsiness, unconsciousness, and, and other central nervous system effects.

Ingestion: May be aspirated and cause lung damage

SECTION 3: COMPOSITION

Chemical Name	CAS Number	Percentage
Isoparaffin	64742-48-9	<50%
Petroleum Naphtha	64742-89-8	<15%
Isopropyl Alcohol	67-63-0	<5%
Isopropyl Palmitate	142-91-6	<5%
Isopropyl myristate	110-27-0	<5%
Isopropyl stearate	112-10-7	<5%
Nonwoven	None	<50%

The specific chemical identity and/or exact percentage (concentration) of this composition has been withheld as a trade secret.

SECTION 4: FIRST AID MEASURES

Description of first-aid measures

- Inhalation: Remove from further exposure. Use adequate respiratory protection. If respiratory irradiation, dizziness, nausea, or unconsciousness occurs, seek immediate medical assistance. If breathing has stopped, assist ventilation with a medical device or use mouth to mouth resuscitation.
- Skin contact: Wash contact areas with soap and water. Remove contaminated clothing. Launder contaminated clothing before reuse

Most important symptoms and effects, both acute and delayed

- Eye contact: Immediately flush eyes with plenty of water. If irritation occurs, get medical attention.
- If swallowed: Seek immediate medical attention. Do not induce vomiting.
- Symptoms/Injuries: Not expected to present a significant hazard under anticipated conditions of normal use.

Indication of any immediate medical attention and special treatment needed

No additional information available.

SECTION 5: FIREFIGHTING MEASURES

Extinguishing media

Suitable extinguishing media: Foam, Carbon dioxide, Sand

Special hazards arising from the substance or mixture

Hazardous Combustion Products: Carbon oxides, Silicone oxides, Formaldehyde

Advice for firefighters

- Firefighting instructions: Hazardous material. Self-contained breathing apparatus and full protective clothing should be worn when fighting chemical fires. Vapors are flammable and heavier than air, may travel across the ground and reach remote ignition sources causing a flashback fire danger.
- Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures

For non-emergency personnel

Emergency procedures: Avoid contact with spilled material. See section 4 for first aid advice.

For emergency responders

Protective equipment: Equip cleanup crew with proper protection.

Emergency procedures: Ventilate area

Notification Procedures

U.S. regulations require reporting releases of this material to the environment which exceed the applicable reportable quantity which could reach any waterway.

Methods and material for containment and cleaning up

Methods for cleaning up: Prevent entry into sewer, basements or confined areas. A vapor suppressing foam may be used to reduce vapors. Use clean non-sparking tools to collect absorbed material. Absorb or cover with dry earth, sand, or other non-combustible material and transfer to containers.

Reference to other sections

See heading 8. Exposure controls and personal protection.

SECTION 7: HANDLING & STORAGE

Precautions for safe handling

Precautions for safe handling: Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking, and when leaving work. Provide good ventilation in process area to prevent formation of vapor.

Conditions for safe storage, including any incompatibilities

Storage conditions: Keep only in the original container in a cool, well ventilated place. Keep container closed when not in use.

Incompatible products: Strong bases and strong acids.

Incompatible materials: Sources of ignition. Direct sunlight.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Control Parameters

Engineering Controls: Adequate ventilation so that exposure limits are not exceeded.

Exposure Controls

Personal protective equipment: Avoid all unnecessary exposure.

Hand protection: Wash hands thoroughly after handling. If working with large quantities of this product, use chemical and oil resistant gloves and clothing, and appropriate eye protection.

Eye protection: None required during normal administration or use of this product. When handling large quantities, use approved eye protection to safeguard against potential eye contact.

Respiratory protection: Not applicable, aerosol formation is extremely unlikely for normal use. When handling large quantities, an approved respirator may be used if engineering controls do not maintain airborne contaminant concentration at a level to adequately protect a worker's health.

Other Information: When using, do not eat, drink, or smoke.

SECTION 9: PHYSICAL/CHEMICAL CHARACTERISTICS

Information on basic physical and chemical properties

Physical state:	Wet wipe
Color:	White
Odor:	Characteristic
Odor threshold available:	No data available (pH 6-7)
Relative evaporation rate (butly acetate =1):	No data available
Melting point:	No data available
Freezing point:	No data available
Boiling point:	No data available
Flash point:	No data available
Auto-ignition temperature:	No data available
Decomposition temperature:	No data available
Flammability (solid, gas):	No data available
Vapor pressure:	No data available
Relative vapor density at 20 C:	No data available
Relative density:	No data available
Solubility:	Water
Log Pow:	No data available
Log Kow:	No data available
Viscosity, kinematic:	No data available
Viscosity, dynamic:	No data available
Explosive properties:	No data available
Oxidizing properties:	No data available
Explosive limits:	No data available

Other information

No additional information available

SECTION 10: STABILITY AND REACTIVITY

Reactivity

No additional information available

Chemical stability

Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure

Possibility of hazardous reactions

Not established

Conditions to avoid

Direct sunlight. Extremely high or low temperatures. Avoid heat, sparks, open flames, and other ignition sources

Incompatible materials:

Avoid contact with strong oxidizing agents

Hazardous decomposition products

Material does not decompose at ambient temperatures

SECTION 11: TOXICOLOGICAL INFORMATION

Prolonged or repeated skin contact with this product tends to remove skin oils, possibly leading to irritation and dermatitis; however, based on human experience and available toxicological data, these products judged to be neither a “corrosive” nor an “irritant” by OSHA criteria.

SECTION 12: ECOLOGICAL INFORMATION

Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems, and natural waterways. Not expected to be harmful to aquatic organisms or demonstrate chronic toxicity to aquatic organisms.

Toxicity

No additional information available

Persistence and degradability

Not established

Bio-accumulative potential

Not established

Mobility in Soil

No additional information available

Other adverse effects

Effect on ozone layer:	No additional information available
Effect on global warming:	No known ecological damage caused by this product
Other information:	Avoid release to the environment

SECTION 13: DISPOSAL CONSIDERATIONS

For small quantities, product is suitable for burning in an enclosed controlled burner for fuel value or disposal by supervised incineration at very high temperature to prevent formation of undesirable combustion product. Disposal of the used product may also be regulated due to ignitability, corrosivity, reactivity or toxicity as determined by the Toxicity Characteristic Leaching Procedure (TCLP). For large quantities, any disposal practice must be in compliance with local, state and federal laws and regulations (contact local or state environmental agency for specific rules). Do not dispose of via sinks, drains, or into immediate environment.

Waste treatment methods

Waste disposal recommendations:	Dispose in a safe manner in accordance with local/national regulations
Ecology – waste materials:	Avoid release to the environment

SECTION 14: TRANSPORT INFORMATION

Additional information

Land (DOT):	Flammable liquid or combustible liquid. This material is not regulated under 49 CFR in a container of 119 gallons or less.
Land (TDG):	Flammable liquid or combustible liquid. This material is not regulated under 49 CFR in a container of 119 gallons or less.
Transport by sea (IMDG):	This product is considered a flammable liquid. Bulk or non-bulk packaging. UN1268, Petroleum Distillates, N.O.S., 3, PG III finished product. Shipped under consumer commodity
Air transport:	This product is considered a flammable liquid. Bulk or non-bulk packaging. UN1268, Petroleum Distillates, N.O.S., 3, PG III finished product. Shipped under consumer commodity.

SECTION 15: REGULATORY INFORMATION

US Federal Regulations

TSCA:	Exempt
CERCLA:	This product contains no components subject to reporting or notification requirements
SARA (311/312) Reportable Hazards Category:	Fire
SARA (313) Toxic Release Inventory:	This product contains no chemicals subject to the supplier notification requirements.

International Regulations – CANADA

No additional information available

EU – Regulations

No additional information available

Classification according to Regulation (EC) No. 1272/2008 [CLP]

Not classified

Classification according to Directive 67/548/EEC [DSD] or 1999/45/EC [DPD]

Not classified

National Regulations

No additional information available

US State Regulations

No additional information available

SECTION 16: OTHER INFORMATION

Other information: None

DISCLAIMER: This information relates onto to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. The information and recommendations contained herein are to the best of the manufacturer's knowledge and belief accurate and reliable as of the date indicated. No representation warranty or guarantee, however, is made with regards to accuracy, reliability or completeness. Conditions of use of the material are under the control of the user; therefore, it is the user's responsibility to satisfy itself as to the suitability and completeness of such information for its own particular use. Appropriate warnings and safe-handling procedures should be provided to handlers and users.
