

## Eye Protectors

McKesson Eye Protectors are used to shield patient's eyes during surgical or general medical procedures. Made of rigid, clear plastic to enable easy monitoring of patient's eyes. The self-adhesive foam cushion allows for fast and accurate application. Our eye protectors are sterile and individually packaged for single use to help prevent cross contamination, and are available in single or double foam thickness, as well as adult and pediatric sizes.

### Features and Benefits

- Rigid, clear plastic eye cover provides comfortable, effective eye protection
- Enables easy monitoring and visualization of patient's eyes
- Self-adhesive foam cushion for easy application and removal
- Flexible foam comfortably conforms to the patient's facial features for a secure fit
- Thick foam for patient comfort even in prone position
- Improved one-piece backing with "courtesy tabs"
- Available in single- or double-thickness foam
- Not made with natural rubber latex
