VENTILATED FABRIC

Vant fabric is a three-dimensional polypropylene material that has high air permeability and is antibacterial. Using this material in the cushion covers greatly increases air movement.

PRESSURE & SUPPORT

The Icare cushions provide a huge range of solutions around positioning, alignment and pressure care.

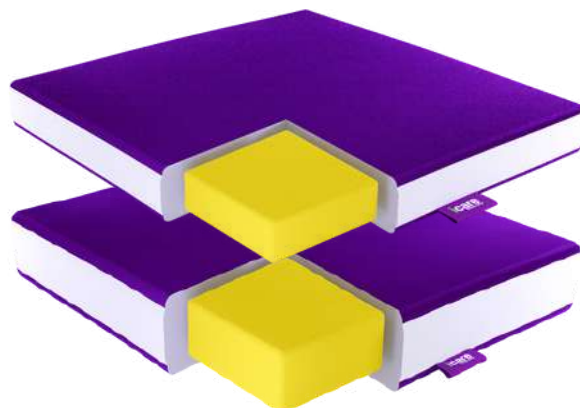

FOR EVERYONE

Icare Supporta cushions are designed to be used at home, travelling, in the office or wherever additional comfort and support is required. Ideal for pre or post surgery relief.

SEAT CUSHION

The Icare seat cushioning range offers a range of sizes in 2in and 4in thickness. With washable zip off covers and a high density core. The Icare cushions are perfect for added comfort in wheelchairs, travelling and seating in the home.

The Supporta seat cushion range features an Visco elastic core which respond to pressure in a different way. Instead of pushing back like standard foam cushions, the Icare cushions will mold around the shape of your body taking away points of pressure.

COMMON USAGE

The Icare Seat cushions offer relief for posture-related problems, such as back pain, sciatica, and pressure points. Additionally, these cushions can aid in achieving postural alignment and pelvic stability.

ZEROTEC COVER AVAILABLE

Zerotec fabric is a medical barrier fabric that has high elasticity in every direction which reduces shear on pressure redistribution surfaces. It is waterproof and wipeable but has microporous breathable properties. This cover has welded seams and waterfall flaps for fluid control.

PRODUCT CODE

Description Code	Icare Large Bed Wedge IC172
------------------	-----------------------------

SMALL BED WEDGE

An Icare Small Bed Wedge can be used to elevate the upper body to alleviate acid reflux, respiratory problems, and back or neck pain. It can also be used to increase circulation and reduce conditions such as varicose veins in the legs. Zip off washable cover. Elevation angle of 15°.

Size: 27" (L) x 23.25" (W) x 6.25" (H)

COMMON USAGE

The Bed Wedge can be used to elevate the head and shoulders, or the feet and lower legs. The smaller size is better suited to petite persons.

PRODUCT CODE

Description Code	Icare Small Bed Wedge IC182
------------------	-----------------------------

HIP ABDUCTOR CUSHION

The Hip Abductor cushion is a device used to prevent the hips from moving out of the joint. The pillow is placed between the thighs and attached to your legs with straps. Used to keep the hips stable while in bed. Adjustable velcro straps. Zip off washable cover.

Size: 17" (L) x 13" (W) x 6" (H)

COMMON USAGE

The Hip Abductor cushion may be used for immobilization or post-operative positioning and to enable healing. Also can prevent hip dislocation.

PRODUCT CODE

Description Code	Icare Hip Abductor Support IC189
------------------	----------------------------------

LEG RAISER

Icare Leg Raiser Cushion is designed to elevate the lower leg while in the supine position. With the leg cradle cut out, this assists with fluid management, positioning and pressure redistribution and can help with lower back pain.

Size: 31.5" (L) x 13.25" (W) x 9.5" (H)

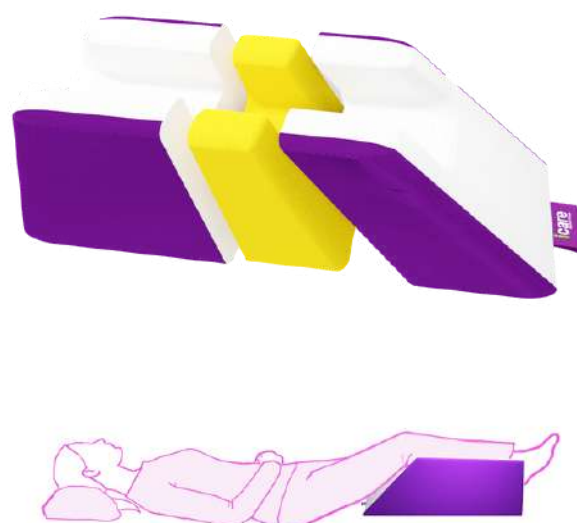

COMMON USAGE

Suitable for post surgery recovery, varicose veins, swollen ankles, phlebitis oedema.

PRODUCT CODE

Description Code	Icare Leg Raiser IC184
------------------	------------------------

ROTATOR CUFF RECOVERY PILLOW

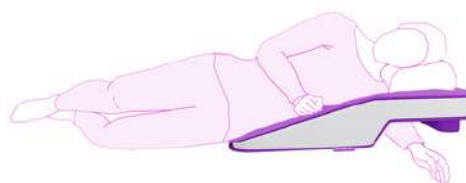

Experience optimal support and comfort for rotator cuff recovery with this specialized pillow. Its unique wedge-shaped design reduces strain, promotes proper alignment, and accelerates healing.

Size: 26.75" (L) x 30.75" (W) x 6" (H)

COMMON USAGE

The design of this support reduces weight on shoulder area for side sleepers. Used specifically for shoulder procedure recovery.

PRODUCT CODE

Description Code	Rotator Cuff Recovery Pillow IC190
------------------	---------------------------------------

BODY POSITIONING PILLOW

Designed for comfort and support during pregnancy and for positioning with our body positioning pillow. Helping with relief from pregnancy-related positioning, alleviating pressure and body alignment.

Size: 15" (L) x 9.75" (W) x 3" (H)

COMMON USAGE

This cushion can assist with positioning and pressure care for various parts of the body during sleep or rest, including spinal alignment and pregnancy support.

PRODUCT CODE

Description Code	Body Positioning Pillow IC191
------------------	----------------------------------

BODY PILLOW

The Icare Body Pillow provides all night comfort, support and positioning. With a unique hollow core fiber encasement and beaded ActiveX™ core this cushion can be molded to help a wide range of needs. Used for pregnancy, alignment, security and positioning. Helps to align spine, hips and legs to reduce pain. Zip off washable cover.

Size: 52.25" (L) x 22.5" (W) x 6.25" (H)

FIBER ENCASEMENT

The unique hollow core fiber encased cover gives the user a soft breathable comfort layer.

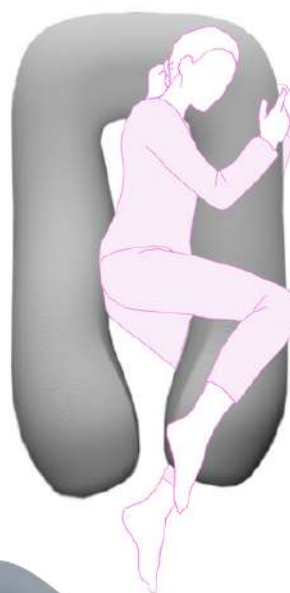

CHIPPED MOLDABLE CORE

ActiveX™ material in the core is chipped to provide a unique support that is able to be molded to the user.

SENSORY FRIENDLY COVER

A sensory-friendly cover features soft and gentle textures, hypoallergenic materials, and is designed to reduce noise and tactile stimulation.

PRODUCT CODE

Description Code	Icare Body Pillow ICP9
------------------	------------------------

PRESSURE PAD

The Icare Pressure Pad can be used to provide extra pressure relief in a variety of applications when sitting or lying. The Pressure Pad can be rolled and placed under heels when sitting or lying; or provide targeted pressure relief for sacral and coccyx area. Zip off washable cover.

Size: 35.75" (L) x 18" (W) x 2" (H)

PRESSURE REDISTRIBUTION

ActiveX™ is a high grade of elastic type foam which is responsive to temperature around inflamed areas. ActiveX™ will become softer as it becomes warmer. So around a pressure point it will always soften and allow the blood to circulate freely.

NON-SLIP BASE FABRIC

The non-slip fabric on the base of the Icare Pressure Pad prevents the pad slipping when used on vinyl or slippery surfaces.

SENSORY FRIENDLY COVER

A sensory-friendly cover features soft and gentle textures, hypoallergenic materials, and is designed to reduce noise and tactile stimulation.

PRODUCT CODE

Description Code	Icare Pressure Pad IC194
